

The Fort Street High School  
**Environmental Council**

---

### **Renewable Energy**

- Solar Panels: Repair and add further panels
- Wind Turbine: Conduct further research into wind energy

### **Resource Efficiency**

- Project Neutral: Name 'n' Shame classes with lights/appliances on during before school/recess/lunch
- Energy Efficient Lighting: Separate light "zones" for every class; dimmers for Cohen and Rowe Buildings
- Water: Recycle black, grey and drinking water; dual flush toilets; waterless urinals; spring loaded taps & bubblers
- Reverse Recycling: Further research into 'Reverse Recycling Machines'; possibly implement by end of 2010
- Paper Resources: 100% recycled paper used; double-sided printing made mandatory

### **Ecological and Physical Environment**

- Vegetable/Herb Garden: Implement vegetable garden in unused land next to tennis courts
- Worm Farm: Finalise implementation for worm farm; work with school janitor to make smooth entrance of worms

### **Promotion**

- Fort Street Festival: Run a stall at the biannual festival to raise awareness
- Mecurius & The Fortian: Put in biweekly and annual Environment Committee reports to promote committee
